The Pumpkin House for Children is an orphanage for underprivileged children in a village near Ahmednagar in India. Pumpkin House has grown to a family home for more than 85 children who have been abandoned, abused, disowned by their families, some of them have even almost been killed.

The Pumpkin House was established by an Indian family in order to help create a better life for these children. Here they are taken care of with loving respect, excellently educated and given space for creativity.

The German Non Profit Organisation Pumpkin e.V. was founded by a group of seven friends with close bonds to India. We know the Pumpkin family personally and have developed a very close and trustful relationship to them.
We deeply respect and admire the family's work and support them with creative fundraising campaigns in a best possible way.
